REFUEL THE SMART AND EASY WAY WITH CONTRACTOR 110 DELUXE

The Contractor 110 Deluxe is a portable gas station on wheels. Equipped with a fast flowing 15 GPM electric pump and an automatic shutoff nozzle, when the pump is running, fuel flows at a rate nearly twice that of most gas station pumps which allows for quick and efficient refueling operations.

In addition to the Contractor Deluxe's efficiency, its reinforced strength trailer gives it the portable versatility needed to deliver and pump fuel wherever it's needed. With the Contractor Deluxe, gone are the days of getting dragged down by hauling small containers and small amounts of fuel or needing a team of people to transport large volumes of fuel. This model's 110 gallon tank provides the perfect volume of fuel needed on a portable platform that makes it easy for one person to handle the entire refueling job themselves.

SPECIFICATIONS

Model: Contractor 110 Deluxe
Model Number: P2G110CD
Model UPC: 799493278569
Tank Size: 110 Gallons
Tank Material: Aluminum
Fuel Types: Gasoline, Diesel, Kerosene
Dimensions: 102" length x 48" width x 46" height (total footprint)
